# The Tiguan.

## It changes everything.

It's not often that an SUV comes along that changes the way people think about driving. The latest Tiguan is that vehicle, a stunning addition to Volkswagen's fleet that sets new benchmarks in terms of style, refinement and pure driver appeal.

With a sleek new design that conveys its sporty intent and proportions that allow generous levels of space and comfort inside the cabin, the Tiguan could just be the best-looking SUV on the road.

The Tiguan's performance is every match for its visual appeal. Powered by new TSI petrol and TDI diesel engine technology, and with 4MOTION all-wheel drive available in all but the 110TSI variants, the Tiguan is as capable off-road as it is around town and on the highway. And together with BlueMotion Technology as standard, you can count on the Tiguan for excellent fuel efficiency.

Outstanding levels of safety, technology and connectivity are a Tiguan hallmark and help set it apart from other vehicles in its class. Not only has the new Tiguan received an array of technological innovation to improve driving dynamics, the addition of active safety features as standard makes the Tiguan one of the most confidence-inspiring SUVs ever to be released.

Inside, the Tiguan combines stylish sophistication and space with driver aids designed to make driving as pleasurable as possible. Premium appointments throughout hint at levels of luxury rarely seen in this grade of vehicle, while impressive infotainment options help put the world at your fingertips.

---

## Exterior

The latest Tiguan extends the appeal of Volkswagen's latest brand architecture with a vehicle that is at once stylish and commanding.

The new model exudes strength and solidity thanks to its balanced proportions and long wheelbase. Its low profile also gives it a crouched, sporty look that is only enhanced by its sleek lines and well-proportioned curves. This is a vehicle that is rugged and elegant in equal measure.

The Tiguan presents a confident face to oncoming traffic, with angled headlights and LED daytime driving lights with integrated chrome strips (in the Highline) sitting below a high bonnet complete with V-shaped character lines. Side and central air inlets with honeycomb pattern are distinctive elements that add to the appeal of the Tiguan's façade.

In profile, the Tiguan's angular new look is aided by a striking shoulder line with integrated door handles. In Comfortline and Highline trim, the addition of a chrome finish to the window frames, lower body strip and roof rails gives the Tiguan a premium look.

From behind, the eye is immediately drawn to the Tiguan's large rear window and the continuation of the side shoulder line through the tailgate. LED tail lights are a feature across the entire range, as is the protruding diffuser with integrated parking sensors. Trapezoidal exhausts left and right on the 162TSI Highline give it a purposeful appearance.

Select the R-Line package on the Highline variant and the Tiguan receives a thorough sports styling transformation complete with R-Line bumpers, side sills, rear roof spoiler and exclusive R-Line badging.

A variety of appealing alloy wheels help set the Tiguan apart from its competitors. Among those available are 17-inch Montana (Trendline) and Tulsa (Comfortline) wheels, through to 18-inch Kingston (Highline) wheels and imposing 20-inch Suzuka wheels as part of the R-Line package.

# Interior

The Tiguan wouldn't be a Volkswagen if it didn't convey a sense of refined comfort with every touch.

The dashboard itself is the epitome of clean and functional design, with everything the driver needs readily at hand. The cockpit has been designed to make the driver feel in charge and completely at one with the vehicle. A high-positioned gearshift and leather multi-function steering wheel with gearshift paddles (in the Highline) are just two examples of Volkswagen's focus on driver enjoyment.

Just because the cabin is practical doesn't mean it loses in terms of visual appeal. Decorative inserts in the dashboard and extending through to the rear are reminders that the Tiguan has been designed to look good as well as function perfectly.

A key feature of the Tiguan's interior is undoubtedly its generous luggage capacity. At 615 litres with the seats up (and in the forward position), and expandable to 1655L with the seats folded, there is no need to worry about loading that extra suitcase or box of groceries. A low loading sill makes for easy use of the boot space, as does a luggage compartment floor that can be adjusted to two different heights.

If exceptional space weren't enough, the Tiguan has been designed to be as practical as possible. Front seat backrest-mounted tables are a versatile feature in Comfortline and Highline variants, as is the dashboard compartment for easy storage of sunglasses and other small items.

Infotainment is front and centre with the latest-generation, high-resolution 8-inch infotainment system complete with clever App-Connect\* technology. Your phone connects via a USB interface, putting favourite apps on your Apple® or Android™ smartphone device immediately at your fingertips.

## Performance

The Tiguan features the very latest in Volkswagen TSI and TDI engine technology, and both systems are bolstered by fuel-saving BlueMotion technologies.

Three TSI petrol engines are available, each tailored to suit different driving demands. The entry-level 1.4-litre TSI engine isn't just sprightly, it's economical thanks to Active Cylinder Management. This clever technology offers fuel savings by shutting down the second and third of the vehicle's four cylinders when the engine isn't under load.

Volkswagen's 2.0-litre 132kW TSI engine is for drivers who want added performance, while the top-spec 2.0-litre 162kW TSI shares an engine with the Golf GTI and offers outstanding power and torque delivery.

Drivers who appreciate the economy and driveability of diesel engines and want to take advantage of the Tiguan's towing potential can opt for one of two diesel engine options. The 2.0-litre 110kW TDI has torque in spades, while the top-spec 2.0-litre 140kW TDI is for those who aspire to optimum diesel performance.

For added confidence in challenging driving conditions, you can't go past Volkswagen's 4MOTION all-wheel drive system with Active Control. It's available on every Tiguan except the 110TSI versions.

Active Control allows the driver to tailor his or her driving experience by choosing one of four special all-wheel drive modes (snow, on-road, and two off-road settings: one automatic and one variable) via a rotary switch. A central mode button activates the Driving Profile Selection, which offers further personalisation of the on-road mode with Normal, Sport and Eco profiles available to the driver.

Opt for the R-Line package and the Tiguan receives innovative Adaptive Chassis Control, which constantly adjusts the suspension to the road conditions and driving situation via electrically controlled dampers. The driver can select from one of three different ride settings – Normal, Sport and Comfort – to alter the Tiguan's damping and steering characteristics. For exceptional feel through corners and less effort required at parking speed, the R-Line package also receives Progressive Steering.

No matter the Tiguan you choose, a range of BlueMotion technologies such as Start/Stop system and Brake Energy Recuperation are there to take the Tiguan further with every tank of fuel.

## Technology and Safety

Few vehicles can claim to offer as extensive a range of intelligent technology as the new Tiguan. One of the new additions to the vehicle is also literally one of the most eye-catching – an Active Info display, part of Volkswagen’s Driver Assistance package, which takes the place of traditional instrumentation behind the steering wheel. This high-definition digital instrument cluster uses a 12.3” screen with configurable views for navigation, infotainment, driver assistance, off-road and vehicle performance functions.

Modern conveniences help make the Tiguan an efficient and pleasurable drive. But they also offer peace of mind by making it exceedingly safe.

Among the aids that appear across the entire range is Front Assist with City Emergency Brake (City EB)\*, which uses a radar sensor to detect when the distance to the vehicle in front is critical and helps to avoid or mitigate a potential impact. Side Assist\* detects vehicles in blind spots to the left and right (optional driver assistance package), while Lane Assist\* is a lane departure warning system designed to reduce the likelihood of the vehicle leaving its lane.

In the unfortunate event of a collision, vehicle occupants are protected by a comprehensive suite of seven airbags, including driver’s knee protection. Multi-Collision Brake is an invaluable tool that initiates braking after a collision has taken place, thus preventing subsequent impacts or mitigating their severity.

The Tiguan also features a first for Volkswagen in the form of an active bonnet that rises away from the engine during a collision to help reduce injury to pedestrians.

Then there is Driver Fatigue Detection\*, which monitors driver behaviour to identify signs of fatigue.

Further assisting the driver is Rear View Camera\*, which is integrated into the Tiguan’s tailgate and offers the ability to view an enhanced image of what is behind the vehicle when reversing. Area View enables drivers to see the entire area surrounding their vehicle (optional driver assistance package), and parking is a cinch with Park Assist\*, which uses sensors front and rear to identify spaces and guide drivers into and out of them automatically.

# Highlights

An impressive amount of technology has been added to the Tiguan that, in combination with a number of new comfort aids, help maximise levels of driver enjoyment.

One small but significant addition to the Highline (and part of the optional Luxury package for Comfortline) is the automatically operated tailgate, which allows for fuss-free opening and closing of the rear door. With the Easy Open function, the tailgate can be opened simply by waving a foot in front of a sensor, making it enormously convenient when carrying a load of shopping. Closing the tailgate is as easy as pressing a button or allowing the Easy Close function to shut the tailgate automatically when the user moves away from the vehicle.

Elsewhere around the Highline, full LED headlights with Dynamic Cornering lights offer exceptional illumination of the road ahead and when turning.

Great care has been taken to improve driver and passenger comfort, which is why the Tiguan now features a new generation of seat with updated foam contours. Choose the Highline variant and feel the difference offered by Black Vienna leather appointed upholstery\*. The driver's seat is electrically adjustable and comes with a memory function. Then there are the added touches that surprise and delight, such as ambient lighting.

Driver and passengers can choose the temperature that suits them courtesy of Air Care 3 Zone Climate Control Air-conditioning (Comfortline and Highline). Up to three different temperatures and air volumes can be selected (for driver, front passenger and rear cabin) with the added benefit of an air quality sensor and anti-allergen filter to maintain optimum air quality.

For the ultimate fit-out of your Tiguan Highline, the R-Line package incorporates all of the best features on offer, plus a suite of others such as R-Line steering wheel, brushed stainless steel pedals and aluminium front door sill strips with R-Line logo.

\*Leather appointed seats have a combination of genuine and artificial leather, but are not wholly leather.

## Colours & Upholstery

Tiguan seats offer new levels of comfort and lateral support, and come in one of three upholstery grades. The Trendline features Black Cloth, while the Comfortline comes with Black Comfort Cloth as standard. The Highline features Storm Grey Vienna leather appointed upholstery^ (only available in Highline models) or Black Vienna leather appointed upholstery^ (also optional with the Comfortline in the luxury package) for the highest level of driver comfort and luxury.

In terms of exterior paint, the Tiguan comes in a variety of appealing colours, with Metallic and Pearl Effect available at an optional extra cost. Choose Pure White as a solid paint finish, or make a statement with one of a range of metallic finishes, including Caribbean Blue, Ruby Red, Habanero Orange, Tungsten Silver and Indium Grey. Deep Black comes in Pearl Effect paint finish for an added twist of exclusivity.

Please note that Metallic and Pearl Effect paint are optional at extra cost. The print process does not allow for exact reproduction of the exterior or the upholstery colours. Please contact your Volkswagen Dealer for further information on colours and upholstery combinations.

# Volkswagen Accessories

Tiguan accessories that deliver everything that Volkswagen Genuine Accessories stands for: quality, safety and dynamic design.

Get ready to load up and drive away with the perfect transport and storage solutions available from Volkswagen Genuine Accessories. And take advantage of the Tiguan's impressive towing capacity of up to 2,500kg on selected models (up to 1,800kg for the Tiguan 110TSI) by adding a Genuine Towbar Kit.

- 01 Roof bars with roof box
- 02 Tablet holder
- 03 Loadliner
- 04 Loading sill protection plate
- 05 Towbar kit
- 06 19" Auckland alloy wheel
- 07 Coat hanger

Please note that the above accessories may have an effect on fuel efficiency. Items such as sports equipment are for illustration purposes only and are not available for purchase from Volkswagen Group Australia or its dealers. For a full range of genuine accessories please refer to the model specific accessories tab at [www.volkswagen.com.au](http://www.volkswagen.com.au). Overseas models are shown for illustrative purposes only.

# Volkswagen Choice: Protecting your investment

Enjoy a flexible finance solution that provides you with the assurance of knowing exactly what the minimum value<sup>#</sup> of your vehicle will be at the end of your term.

- ✓ Personally tailored solutions, based on your term and kilometre usage
- ✓ Opportunity to upgrade your Volkswagen to the latest model more often, enjoying the best innovations and new technologies
- ✓ Peace of mind knowing the minimum future value of your Volkswagen right from the start, so you know it will retain its value over time<sup>^</sup>

**At the end of your term, you can simply choose to:**

## TRADE-IN

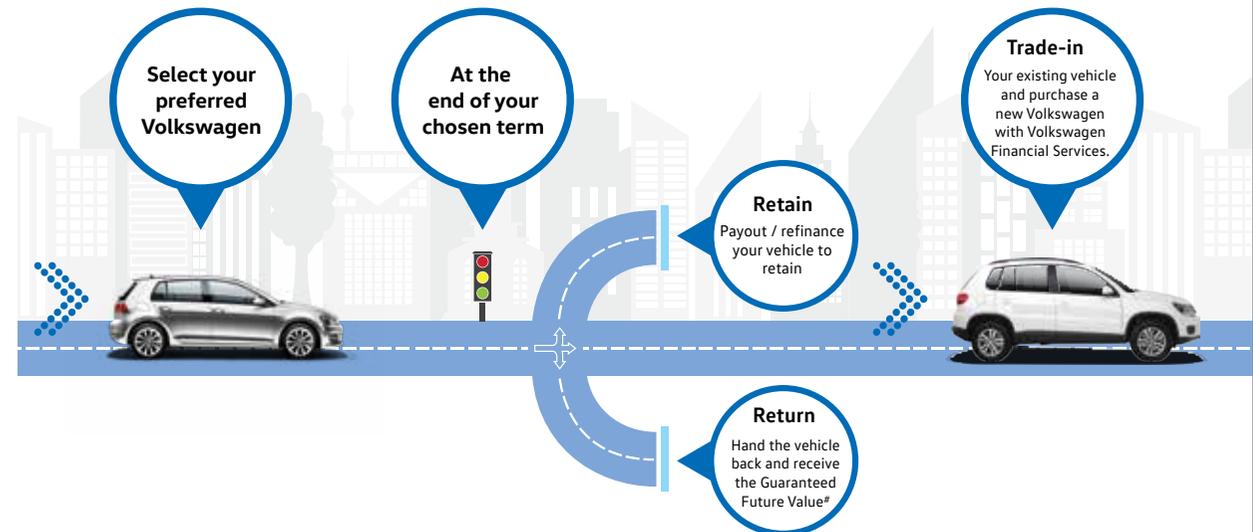

If you wish to trade-in your Volkswagen for a new vehicle, all you need to do is return it to the dealership. If the trade-in value is higher than the Guaranteed Future Value, you can use this equity towards your new vehicle.

## RETAIN

If you prefer to retain your Volkswagen, simply let us know. Provided that you also meet the relevant payment obligations under your contract, if we agree, you can purchase your vehicle outright for the Guaranteed Future Value price locked in at the start of the contract.<sup>#</sup> Then your Volkswagen is yours to keep. Or you can choose to refinance your residual at the end of the term.

## RETURN

Simply return your vehicle to your Volkswagen dealership at the end of the term. If the vehicle meets the agreed requirements,<sup>#</sup> we will give you the benefit of the full Guaranteed Future Value amount.

To find out more, go to [www.volkswagenaustralia.com.au/volkswagenchoice](http://www.volkswagenaustralia.com.au/volkswagenchoice)

To learn more about further finance and insurance options, go to [www.vwfinancialservices.com.au](http://www.vwfinancialservices.com.au)

<sup>#</sup>The Volkswagen Choice Program consists of an option to require Volkswagen Financial Services to purchase your vehicle at the end of your Volkswagen Financial Services Chattel Mortgage, Consumer Loan or Hire Purchase for a value (known as the Guaranteed Future Value) determined by Volkswagen Financial Services and set out in your contract. The Guaranteed Future Value is not a representation by Volkswagen Financial Services as to the likely market value of your vehicle as at the end of your contract. The option is available on new and demonstrator Volkswagen vehicles for selected models only. Please verify with your dealership vehicles that are eligible for the program. <sup>#</sup>If vehicles are not returned in an acceptable condition, as defined in the terms and conditions or exceed kilometre restrictions the Guaranteed Future Value will be reduced. See the Volkswagen Choice Fair Wear and Tear Guide for more information on the required conditions and circumstances. The cost of the Volkswagen Choice Program is incorporated into the applicable interest rate. Please read the full terms and conditions. Please consider whether these products and services are appropriate for your circumstances. Before acting on any of the information on this page, please seek independent financial and tax advice. Full terms and conditions are available upon application. Available only to approved applicants of Volkswagen Financial Services. Subject to credit assessment. Fees and charges apply. Fleet, government, rental buyers, hire car and chauffeur companies are excluded. Available at participating Volkswagen dealers. Volkswagen Financial Services is a trading name of Volkswagen Financial Services Australia Pty Limited ABN 20 097 071 460. Australian Credit Licence 389344.

~ The Start/Stop system is designed to reduce fuel consumption and CO2 emissions. It achieves this by automatically switching off the engine while the vehicle is stationary and then starting it again automatically when the driver wants to drive off. There are certain operating conditions where the Start/Stop system is deactivated (e.g. during engine warm-up), please refer to the owner's manual for full operating information.

# Please note figures are sourced from overseas data where equipment levels by model variant may vary.

\*\* Fuel consumption figures according to Australian Design Rule (ADR) 81/02 derived from laboratory testing. Factors including but not limited to driving style, road and traffic conditions, environmental influences, vehicle condition and accessories fitted, will in practice in the real world lead to figures which generally differ from those advertised. Advertised figures are meant for comparison amongst vehicles only.

^ Safety technologies are not a substitute for the driver's responsibility of the vehicle.

\* Leather appointed seats has a combination of genuine and artificial leather, but are not wholly leather.

#App-Connect is compatible for selected apps with the latest smartphone versions of iOS and Android.
